

HASSANA ABDULLAHI

Data Analyst · Excel · SQL · Python · Power BI / Tableau

hassanaabd11@gmail.com | +234 810 292 0194 | Kano, Nigeria (Open to Remote) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Aspiring Data Analyst with a 2+ year foundation in software engineering, now trained through the Women Techsters 5.0 Data Analytics Bootcamp (Tech4Dev). Skilled in Excel, SQL, Python, and Power BI/Tableau, with hands-on experience turning raw, multi-country datasets into clear dashboards and actionable insights. Combines strong analytical thinking and technical fluency with a track record of independently learning new tools and shipping data-driven products end to end.

TECHNICAL SKILLS

- Data Analysis & Visualization: Excel (pivot tables, formulas, dashboards), SQL (queries, joins, aggregations), Python (Pandas, data cleaning & analysis), Power BI, Tableau
- Data Storytelling: Dashboard design, KPI tracking, trend & risk analysis, translating raw data into actionable insights
- Supporting Technical Skills: JavaScript/TypeScript, React.js/Next.js, REST API integration, Git/GitHub
- Core Strengths: Analytical thinking, attention to detail, self-directed learning, stakeholder communication, project ownership

CERTIFICATIONS & TRAINING

Women Techsters 5.0 Data Analytics Bootcamp — Tech4Dev

- Intensive hands-on training in Excel, SQL, Python, Power BI/Tableau, and dashboard development; capstone project presented at Demo Day (March 2026).

Google Project Management Certificate

- Earned during National Youth Service Corps (NYSC); project planning, execution, and stakeholder coordination.

DATA ANALYTICS PROJECTS

Urban Population Dynamics — SDG 11 Sustainable Cities Analysis

Synergy Team · Women Techsters 5.0 Bootcamp Capstone (Category 1) · Demo Day, March 2026 | [Live Dashboard](#)

- Analyzed 235 countries across 16 indicators covering urbanisation, population density, migration flows, and fertility rates to surface insights aligned with SDG 11 (Sustainable Cities & Communities).
- Built a multi-view interactive dashboard (Overview, Pressure & Density, Migration, Population, Insights, Data Table) to make complex, multi-country data accessible to non-technical stakeholders.
- Designed a risk-classification framework segmenting countries into Low/Medium/High urban pressure risk (204/25/6), flagging dense city-states such as Macao, Monaco, and Bahrain as extreme-pressure cases.
- Surfaced key findings on population concentration, migration pressure (e.g. USA +955K, Germany +544K net migration), and fertility trends (Niger 7.0, DR Congo 6.0), translating raw data into policy-relevant insights.

NGX Stock Guide — Nigerian Exchange Growth Stock Analysis

[introtostocks.lovable.app](#)

- Researched and structured data on the top 10 growth stocks on the Nigerian Exchange (NGX) as of March 2026, including SCOANIG, NEIMETH, UPDC, MBENEFIT, JAIZBANK, and FIDSON.
- Built an interactive guide combining market terminology, stock overviews, and price charts to make NGX market data accessible and actionable for new investors.

RELEVANT EXPERIENCE

Frontend Developer | BellbankMFB Mar 2025 – Jan 2026 · Remote, Nigeria

- Built and maintained data-driven dashboards (transaction histories, account summaries) for a live banking product, working closely with REST APIs and backend data sources.

- Ensured accurate, reliable data synchronisation and presentation across high-traffic banking interfaces used by real customers.
- Tracked application performance metrics (Lighthouse, Sentry) to monitor and improve key product health indicators.

Frontend Engineer | Esdiac Global *Sep 2024 – Mar 2025 · Kano, Nigeria*

- Integrated third-party REST APIs and structured data flows into user-facing applications, improving engagement through data-informed UI decisions.
- Collaborated cross-functionally with stakeholders to translate business requirements into clear, structured data presentations.

EDUCATION

BSc Computer Science — Upper Second Class Honours (CGPA 4.33/5.0)

Bayero University Kano, Nigeria · 2018 – 2024 · Software Engineering, Database Systems, Project Management, Programming

AltSchool Africa — School of Software Engineering

Intensive Frontend Engineering Curriculum · 2022 – 2023

National Youth Service Corps (NYSC)

2025 – 2026 · Completed national service; leadership, professionalism, and community development

COMMUNITY & LEADERSHIP

- G3Women (Empowering African Women in Tech) — active contributor
- Google Developer Student Club (GDSC) — Core Team Member: co-organised technical workshops and developer events
- Inspire for Growth (I4G) — Campus Ambassador: mobilised student developers and facilitated learning cohorts
